

AN EVENING AT THE STONE GOAT

Thursday, April 23, 2026 | 6–9 PM
The Stone Goat Restaurant & Brewery
552 N. Country Rd., Saint James, NY 11787

SUPPORTING THE HELEN KELLER SERVICES CHILDREN'S LEARNING CENTER EXPANSION TO LONG ISLAND

Join us for an evening of food, drinks, and community as we build support for two new specialized preschools opening in Suffolk and Nassau Counties in 2026.

The Children's Learning Center (CLC) is a specialized preschool program for children ages 3–5 with complex developmental needs—including visual impairments, autism, Down syndrome, multiple disabilities, and other conditions affecting learning, communication, mobility, and social development. Our multidisciplinary teams integrate education and therapy under one roof—addressing cognitive, physical, social, emotional, and adaptive development—providing the coordinated support these children need to thrive.

On Long Island, comprehensive specialized preschool programs for children with complex developmental needs remain limited. This event brings together local businesses, community leaders, and supporters who recognize the need for specialized early childhood services. The evening provides an opportunity to learn more about the CLC model, hear from families and staff from our Brooklyn program, and contribute to ensuring children with disabilities across Nassau and Suffolk Counties have access to the specialized services that set the foundation for lifelong learning and independence.
